

# Go Outside

## Dodge Ball

### **What you need:**

5 Rubber balls

Pavement area

Large group of players ( 8+)

### **How To Play**

Make a large circle on the pavement with all the kids.

Most of the kids should start on the inside of the circle. For instance, if you have 8 kids, have three stay on the outside with one rubber ball each in their hands. The other 5 kids stand on the inside of the circle.

The kids with the rubber balls are going to try to throw the ball and tag someone on the inside from the waist or below. If they do this, the person they tagged must come to the outside and can now join the throwers.

The kids on the inside try to move and twist to avoid getting tagged by the ball.

Try to see who can stay in the longest!
