

Go Outside

Kick Ball

What you need:

1 Rubber Ball

How To Play

Two teams play against each other. This is just like softball but with a different ball. The pitcher rolls the ball to the kicker. When they kick it, the field players try to catch it and tag the player with the ball or throw it at them (below the waist only). If they tag them, the player is out. The kicker gets to stay on base if they don't get tagged and then the next kicker is up. Each team gets three outs before they switch.
