

# Go Outside

## Garden Growing

### **What you need:**

1 shovel  
5 popsicle sticks  
1 pen  
Various seed packets  
Garden area to plant seeds

### **How To Get Started**

Gardening is a great activity for the whole family. Start in a small area where there is some good soil. You may need to weed the area first and then dig up the soil to get it ready. Follow the directions on the seed packets and plant them in your garden. If you are planting different things, use the pen and popsicle stick to label which is which. Don't forget to water your garden and have fun watching it grow!
