

Go Outside

Marshmallow Catch

What you need:

- 1 bag of marshmallows
- 1 package of plastic spoons
- 1 pack of small bags (brown lunch bags)
- Handful of small rocks

How To Play

Players split into pairs. One is the marshmallow flinger and the other is the marshmallow catcher.

The pair should stand about 15 feet apart. Use the rocks to create a line for both the flingers and catchers. Both players must stay behind this line during the game. The marshmallow flinger has to use the plastic spoon to fling marshmallows to his teammate, the catcher. The catcher catches their marshmallows in a lunch bag. First team to catch 10 marshmallows in their bag wins!
