

# Go Outside

## Popcorn

### **What you need:**

Outdoor area

### **How To Play**

Everyone should be familiar with what the numbers 2-5 stand for when they are called out. Each one stands for the following:

“2” two people in a piggy back

“3” three people holding hand singing ring around the rosy

“4” four people on the ground rowing the boat

“5” five people in a pyramid, 3 bottom, 2 middle, 1 top

Once everyone knows what the numbers stand for, go to a large grassy outdoor area and start running around in all different directions. The “caller” should randomly call out a number between 2 and 5. When a number is called, everyone who is running around must form those groups. Anyone not in a correct group is out for this round. Keep going until there are only two people left and you have your winners!
