## Shaving Cream Shoot Off

### **What you need:**

- 1 can of shaving cream
- 2 water guns

### **How To Play**

Set up as many teams as you would like to have. Each team must have one large water gun filled with water and one team member willing to get wet. Make sure that all the designated targets don't have a shirt that has an iron-on design on the front.

On the willing team member, squirt shaving cream on the front of their shirt. If you do the same design, it makes the amount of shaving cream the same for all teams. Each member of the team will get one squirt from the water gun to try and remove the shaving cream. You will rotate the team line until all the shaving cream is removed. The first team to remove the cream is the cream of the crop or in other words, "The Winners".
