

Go Outside

Steal the Bacon

What you need:

1 soda can or eraser (this is the bacon!)

How To Play

Split up into two teams and designate one person as the caller. Each team is numbered off starting with one, two, three....until everyone has a number. So there should be two number 1's and two number 2's and so on. The teams line up facing each other with about 40 feet between them.

The "bacon" is placed in the middle. The caller then calls out a random number. The player from each team with that number must race to get the "bacon" and return back to their team. You get 1 point for each time your teams retrieves the "bacon" first. When everyone has gone, try switching people's numbers so they go against different people.
