

Go Outside

Toothbrush Relay

What you need:

- 1 old toothbrush per player
- 1 balloon per player

How To Play

Divide into two teams and make lines. The first person in each line has to run out to an object (pick a tree or something about 15 feet away) while balancing the balloon with just the toothbrush. No using your hands! It is a relay so when the first player returns, he hands off the toothbrush and the balloon to the next in line. Once everyone has taken a turn everyone sits down to show they have finished. The first team with all of their players sitting down WINS!
