

Go Outside

Crab and Crawfishing

What you need:

1 beach or pond

1 piece of string

1 piece of meat – uncooked works best (bacon, sandwich meat, chicken)

Getting Started

Tie the meat to the end of the string.

Hold the string and when you feel the crawfish or crab tugging on the string slowly pull them in.

For Crabs: Lower the string off a pier or toss the meat into tidal pools.

For Crawfish: Toss the meat into a pond.
